Library Report.

REPORT OF THE TRUSTEES, NICHOLS MEMORIAL LIBRARY.

Another year has gone by since our last report. We trust and feel assured that the people have received their good share of benefit from the rich affluence of our Nichols Memorial Library.

That the books have been read extensively, a glance at the Librarian's report amply shows. So faithfully and well have they been used that the rebinding of 172 volumes became a necessity. It is far less expensive to rebind a good and much called for book than to repurchase it; therefore we have made a considerable saving by resorting to this procedure. Mr. Nichols generously gave us \$60 a year as the interest of a bond he deposited for magazines and papers.

This aside from his great gift of the building and fixtures and many volumes to start out the enterprise. The Seminary authorities continue to treat us magnanimously in placing so many of its new purchases on our shelves, more in fact each year than we are able to obtain with the money directly appropriated by the town. We should certainly be generous enough to ourselves and grateful enough to Mr. Nichols to place a reasonable number of books in the stacks each year to make an honorable showing against all the foregoing.

To meet the demands of the times we should have at least double the sum for bound books that is expended for magazines. With this we could keep our readers abreast of other like communities.

For some unaccountable reason our appropriation of last year was too small, smaller than ever before. It may have been an oversight; it was a sad mistake at all events.

A library is a great school and educates old and young alike. Every good and true citizen will see at a glance that money is never better spent than here.

Rev. George J. Judkins has this year given three volumes of the old History of Militia of Kingston. These are now on our shelves and are invaluable. We would render the giver thanks.

The total number of volumes in circulation during the year past is not so large as that of the year preceding, because not so many new books have been had to give out. Let every lover of intelligence *think* and be prepared to help see to it that the appropriation for the coming year is ample to satisfy more fully the demands of a reading and studious people.

Report of Board of Health.

Last year the printer made us say that an epidemic should be regulated at its outbreak, whereas the statement made was that it should be "jugulated," i. e. strangled. We also quoted in our report Sec. 2, Chap. 16, Public Statutes, relating to contagious diseases. This was left out of the printed report. The result was that the report as printed was very unlike that signed by the health officers. In this report we print three sections from the Public Statutes to which we desire to call the attention of the public.

Sec. 2, Chap. 93, relating to vaccination, reads as follows: "No child shall attend any public, parochial or private school unless he has been vaccinated or has had the small pox, and this section shall be enforced by the board of health." Our board is liable to penalty for its non-enforcement.

Sec. 2, Chap. 16. Whenever any person knows or has reason to believe that any member of his family or household (boarder, roomer or visitor) has either small pox, diphtheria, membranous croup, scarlet fever, typhoid fever, measles or any other malignant communicable disease he shall, within twenty-four hours, if no physician is in attendance, give notice to the local board of health of the town or city in which he resides, and such notice shall be given either verbally to one of the health officers or by a communication addressed to the board of health and duly mailed within the time specified.

Sec. 7 of the same law reads as follows:

No parent or guardian, person or persons having custody of any child shall permit such child, if infected with any communicable disease or has been exposed to such, to attend any public or private school.

The violation of the above law is punishable by a fine of ten dollars for each offense.

We have incorporated the above extracts in our report that none

might disregard the law through ignorance, as has happened in former years.

There has come to the notice of the health officers knowledge of cases of measles and whooping cough which were not reported, and which ignorance of the law is legally no defense, still it seemed hardly fair to prosecute people who did not know that they were doing wrong. Children suffering from a mild form of disease have been allowed to attend school, thus exposing others to disagreeable, if not dangerous consequences. Remember we have no right to expose others to disease, even though we were unfortunate enough to contract it through others' carelessness or wilfulness.

During the year past we have been comparatively free from contagious disease. In the spring there was quite an epidemic of measles in the west part of the town, and, as is often the case, it was traceable to the source. A young man unknowingly contracted this disease in a neighboring town, and before he was aware that he was coming down with it had spread it pretty thoroughly throughout his neighborhood.

There were no fatalities and few serious cases.

A careful observance of the law and the intelligent co-operation of the public with the Board of Health will enable us in time to stamp out most of our contagious epidemic diseases, and while we cannot hope to attain this end in the immediate future, yet judging from the results already obtained the outlook is promising.

We must enlighten and instruct those who err through ignorance and may be required to prosecute those, if any there should be, who are wilfully disobedient or criminally careless.

We believe that the public to-day appreciate our labors more than they have heretofore, and that we may look to them for a more hearty and intelligent co-operation in the future.

C. P. F. JOYCE,
HENRY L. SWEENY.

KINGSTON, N. H., Feb. 20, 1903.

Report of the School Board.

The schools for the year have shown a good deal of interest on the part of pupils and of fidelity on part of teachers. At the close of the spring term we lost two of our competent teachers, in Miss Esther Woodman and Miss Edna Towle, both going to a Normal school to gain a wider study in the art of teaching. Miss Marion Clark was put in District No. 1, and has proved satisfactory for two terms. She will be retained. Miss Beulah Woodward took District No. 5, coming to us direct from the High School in Franklin, Mass., without any experience, and has proved herself a very capable teacher, born for the work. It is the earnest desire of both Board and parents that she decide to return for the coming term. Mrs. Goodwin, in District No. 4, has given good work; and, as Miss Hattie Chase in District No. 2 has taught so many terms in town, it is needless to speak of her merits as a teacher, although we will say she is *the* teacher.

At the beginning of the Fall Term the schools were graded as far as possible, each school having seven grades, with a course of study laid out for each grade, and they have made good progress. If continued another year as mapped they must receive a benefit, as then the parents and pupils will know what is expected in each grade and must keep advancing.

The School at South End has been presented with a large map of the United States by Mr. George F. Quimby, for which the School Board and pupils are very thankful; also Dr. Z. Willis Kemp has presented the Patten School with a pencil sharpener, which the teacher and pupils appreciate very much.

The attendance for the year has been very good, and especial mention is made of Rosamond Stevens, who has been four years without being absent or tardy.
